## elissa schee

*Founding Director*  
Citra, Florida

On Sept. 23, 2008 Margay was riding home on her school bus. Margay was one of 21 students on the bus. The bus was stopped with its flashers on when a semi truck slammed into the back of it. The impact pushed the bus more than 200 feet and caused it to explode.

The other students on the bus, along with the bus driver, were able to get out or had rescuers get them out. Unfortunately, Margay was trapped inside the crushed, burning school bus.

Our little girl, who wanted to soar in the clouds, got to fly with the angels that day. Margay was just 13-years-old.

### personal mission

Losing Margay in such a tragic and preventable way was devastating for our family. It's not something you can be prepared for. Even surrounded by friends and family who offered their support, the pain from losing this amazing young woman was unbearable. *FocusDriven* provides a means for changing a behavior that is killing thousands of people each year. I don't want any other family to lose a loved one because of a distracted driver using a cell phone.

## Margay 13

**margay wanted to be a pilot.** she wanted to soar in the clouds. she loved to surf and skateboard. she loved music. she was focused on school and offered a smile to anyone she met.
